

**7th International Symposium on Spin Trapping**  
*Spin Traps, Nitroxides and Nitric Oxide*  
*Spectroscopy, Chemistry and Free Radical Biology*  
**July 7-11, 2002**

**The Carolina Inn, Chapel Hill  
 North Carolina, USA**

Continued strong interest in free-radical aspects of physical and organic chemistry, biochemistry, pharmacology, toxicology and medicine, as exemplified by the recent meeting in Marseille, France, has prompted us to begin organizing the next meeting in 2002. The 7th International Symposium will again bring together researchers with different backgrounds interested in the detection of low levels of free radicals and related subjects. Thirty oral presentations will be chosen from the abstracts submitted. Participation by younger researchers will be encouraged by travel awards, and a one-day workshop on spin-trapping principles and techniques will be held.

**Tentative topics:**

*Chemistry and Biology of Nitroxides*  
*Synthesis and Reactions of Novel Spin Traps*  
*Cellular Spin Trapping*  
*Nitric Oxide Detection*  
*In Vivo Spin Trapping*  
*Nitron and Nitroxide Drugs*

**Local Committee:**

Ronald Mason  
 Colin Chignell  
 Maria Kadiiska  
 Yang Fann

**International Advisory Committee:**

Ohara Augusto (Sao Paulo, Brazil)  
 Michael Davies (Sydney, Australia)  
 Igor Grigor'ev (Novosibirsk, Russia)  
 Raman Kalyanaraman (Milwaukee, USA)  
 Chris Rowlands (Cardiff, UK)  
 Harold Swartz (Hanover, USA)  
 Aldo Tomasi (Modena, Italy)  
 Paul Tordo (Marseille, France)  
 Toshikazu Yoshikawa (Kyoto, Japan)

*The meeting will be held at The Carolina Inn, a historical hotel located on the campus of The University of North Carolina at Chapel Hill. More than 200 years ago, a small Episcopal chapel called New Hope Chapel on the Hill stood at a crossroads near the future site of the nation's first state university. The town of Chapel Hill derived its name from that church in the woods. Among those who have enjoyed the Carolina Inn's hospitality are some of the country's most prominent figures, including Eleanor Roosevelt, Rose Kennedy, Jimmy Carter, Thomas Wolfe, Eudora Welty, Gloria Steinem, Margaret Truman, Frank Sinatra, Bob Hope, Yogi Berra and Jack Nicklaus.*

Return slip to: **Ms. Barbara Morse, Laboratory of Pharmacology and Chemistry, NIEHS/NIH, P.O. Box 12233, MD F1-03, Research Triangle Park, NC 27709, USA. Fax: (919) 541-5737** or e-mail [morse@niehs.nih.gov](mailto:morse@niehs.nih.gov) with the following information or use World Wide Web: <http://epr.niehs.nih.gov/spintrapping2002> to be placed on the mailing list.

Please send me further details of the 7th International Symposium on Spin Trapping in July 2002 to be held at The Carolina Inn, Chapel Hill, North Carolina, USA
